

Lancaster Firmware Upgrade

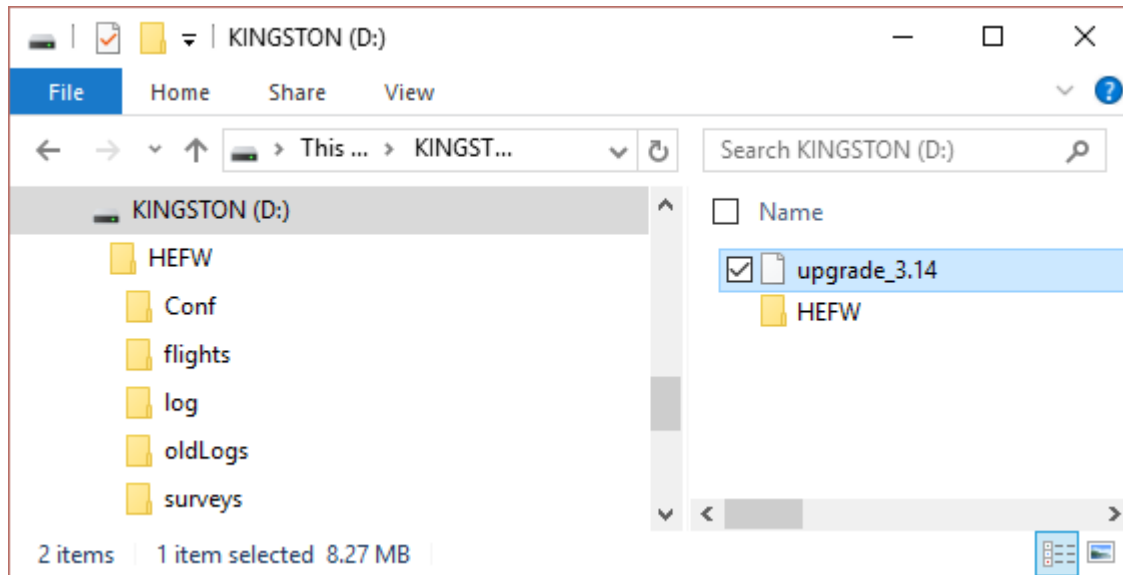

Version 3.14 Upgrade Instructions

Hardware/Software Requirements:

- Lancaster 5
- Lancaster Mark III Rev 4 (with FW version 3.4 or later)

Upgrade Instructions:

1. Extract the contents (unzip) of the provided upgrade file Lancaster_FW_v3.14_Upgrade.zip.
2. Remove the USB key from the back of the aircraft.
3. Plug the USB key into a computer and open the drive.
4. Navigate to the root directory of the USB key (likely drive D:\ or E:\).
5. Copy the extracted file named 'upgrade_3.14' to the root directory.

6. Safely eject the USB Key from the computer and insert it into the back of the aircraft.
7. Power on the aircraft and verify the firmware version in the initial LCD message.
